

## CALCIUM BROMIDE LIQUID

### Main Physical and Chemical Parameters

### Typical Content

Sodium Bromide, NaBr, %	45.50
pH (5% solution)	6 - 8
Specific Gravity @ 25* C	1.5

### Appearance:

Clear colorless to pale yellow liquid

### Packing:

Intermediate Bulk Container (IBC)

Excellent source of bromine, sodium bromide can be used as

- Because of its density, sodium bromide is used as a completion, work-over and packer fluid in oilfield applications.
- When used with an oxidizer, such as sodium hypochlorite, sodium bromide is an excellent biocide. It has wide industrial applications, including water treatment and pulp & paper manufacturing.
- Other applications for sodium bromide also include photography and medicines.
